

CARTON TRIVIA CHALLENGE

TAKE TURNS USING YOUR CARTON CONTRAPTIONS TO ASK YOUR OPPONENT TRIVIA QUESTIONS AND EARN POINTS. THE FIRST PLAYER TO COLLECT 10 POINTS WINS!

MAKE YOUR CARTON CONTRAPTION

1. Cut out your Carton Contraption along the dotted line.

2. Fold two opposite diagonal corners together to make a triangle, then open it back up.

3. Fold the other two opposite diagonal corners together to make a second triangle then open back up.

4. Turn the paper printed side down and fold all four corners to the center of the paper.

5. Flip your paper over so that the carton characters are face down. Again, fold all four corners to the center of the paper.

6. Fold your paper in half making sure that the carton characters are on the outside. Then slide your thumbs and fingers under the four flaps.

7. Finally, rotate your hands bringing all four points of the Carton Contraption together. The Carton Contraption should expand. The triangles with the categories written on them will disappear inside. Now you're ready to challenge your opponent!

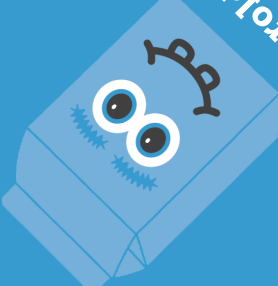

CHALLENGE YOUR FRIENDS

FIRST, with your Carton Contraption closed, ask your opponent to pick a carton character: Harold, Max, Denise or Rita. Then close-and-open the Carton Contraption once for each letter in the carton characters name, leaving it open at the end so that you can see the four categories inside. For example, if your opponent chooses Harold you would open and close your Carton Contraption six times (H-A-R-O-L-D). When you open and close it, open it once with your forefinger and thumb on each hand together. Then open it with your two forefingers together and your two thumbs together.

SECOND, Have your opponent choose a category. Open the category and ask them if they would like to answer the one-point question or challenge themselves and answer the tricky two-point question.

THIRD, Ask them the question found inside (one point or two point question depending on what they chose). If they guess the answer correctly add their points (one or two) to the scoreboard.

Take turns asking and answering questions and adding points to the scoreboard. The first player to collect 10 points wins!

 <p>recycling</p> <p>1 point or 2 points?</p> <p>Q - How many arrows are shown in the recycling symbol? (multiple choice)</p> <p>• 1 • 2 • 3 • 4</p> <p>A - 3</p>	<p>nature</p> <p>1 point or 2 points?</p> <p>Q - Cartons are made from paper, which is made from _____. (fill in the blank)</p> <p>A - trees</p>	<p>random</p> <p>1 point or 2 points?</p> <p>Q - True or false: as much as 50% of the world's food production goes to waste</p> <p>A - true</p>	 <p>health</p> <p>1 point or 2 points?</p> <p>Q - True or false: cartons work to keep your drink's important vitamins and nutrients fresh by blocking out light rays.</p> <p>A - true</p>
<p>1 point or 2 points?</p> <p>Q - True or false: chocolate milk can be just as good for your body as white milk when rebuilding itself after the big game.</p> <p>A - true</p>	<p>recycling</p> <p>+1</p> <p>Q - What can recycled cartons be made into? (multiple choice)</p> <p>• tissues • paper towels • building materials • all of the above</p> <p>A - all of the above</p>	<p>random</p> <p>+2</p> <p>Q - In which of these major cities can you recycle your cartons?
